

**Richard Bandler
& John La Valle
Bring to you**

Altered States Shamanic States & Basic Brain Exploration

Throughout history and across the world humankind has sought ways of exploring inner worlds of alternative reality. Richard Bandler has studied for many years with Shamen and spiritual leaders from many cultures.

Combine this experience with his unique understanding of the neurology and chemistry of the human brain and body and we have a remarkable opportunity to explore. Richard has agreed to share with us his knowledge of altered states of consciousness

Richard's newest development represents the combination of the old and the new, east and west, his travels and experiences in the ancient cultures and his work with the technology and chemistry of the brain and body.

Richard Bandler is joined by John La Valle, Advanced Master Trainer and Richard's American co-trainer. We invite you on this journey of discovery

This workshop is not about theories or explanations...you will experiment and experience the exciting world of your own brain.

Step into the unknown and return with a different perception of your reality and the world around us.

"As our knowledge of the chemistry of the brain increases, so too will our ability to control it spiritually, mentally and physically. It will be a great and wonderful new adventure as a new vista of knowledge unfolds before us."

Richard Bandler

**Sat. 21st November - Mon. 23rd November 2009
Edinburgh
Scotland**

META
