Matrix Essential Training Alliance

Application to attend Altered States, Shamanic States and Basic Brain Exploration.

Please tell us a little about yourself.

What previous experience you have had in;

NLP with Dr Richard Bandler

Hypnosis and trance work

Meditation

Thank you!

Specialist Practitioner Questions

Q. What is NHR?

A. Neuro Hypnotic Repatterning (NHR) is the latest development in the field of NLP (Neuro Linguistic Programming) developed by Dr Richard Bandler. As the name implies this new methodology utilises hypnosis to change the neurology and chemistry to create whole body responses which bathe people in good feelings. It creates rapid change by working directly at a kinaesthetic level so people lead with their feelings to create whole body responses. Once a person learns to experience blissful states, it is impossible for them to get back to the bad state they used to have. NHR can be used to overcome bad past experiences whatever they are and enables people to live life to the full. With the skills of NHR you can improve performance, change states and beliefs, and enhance the lives of yourself or others. NHR is the way Dr Richard Bandler works with his clients. On this programme he teaches you to work in the same way.

Q. What is a Specialist Practitioner?

A. This is a new certificated program licensed and approved by the society of NLP. It shows that the successful participant has reached the required level of competence and training in NHR. The processes taught can be used alone or in conjunction with other skills and techniques gained through an NLP Practitioner qualification.

Q. Do I need to have an NLP Practitioner first?

A. Attendance on the training for the Specialist Practitioner in Neuro Hypnotic Repatterning does not require any prior experience. Whilst the processes have some common ground with those used in NLP our experience shows that participants can gain this relevant knowledge very quickly during the NHR training event. Many people begin with NHR and go on to other trainings. Others who are already Practitioners find their skills enhanced. Practitioner courses give people great techniques and great language skills. This workshop is the format around which these things become immensely more useful.

Q. Can I go on to a NLP Master Practitioner programme after completing this course?

A. This approved certification is an endorsement of other NLP techniques and shows that the successful participant is keeping their skills and knowledge up to date in the ever developing field of NLP. Attending this event is not a replacement of the existing NLP Practitioner programme which will remain as the only approved prerequisite for the Master Practitioner programme.

Q. What will I be able to do when I have finished the course?

A. You will find that the skills you learn are easily applied to yourself and to others. Dr Bandler says 'This is about using very deep trance tools to be able to make very pervasive changes across a wide range of behaviour to teach people the most important thing, which is to spend more time practicing feeling good than they do feeling bad so becomes a habit.' You will find that you can overcome bad experiences and orientate your future to happiness, quickly and easily. Change is not slow and painful with NHR it is fast and fun!
