

**Dr Richard Bandler and John LaValle** for  
the first time in Brighton, the UK's premier seaside town

## **Specialist Practitioner in Neuro Hypnotic Repatterning™**

**Newly certified and Licensed by the Society of NLP**

Gain this very special qualification recognising the unique nature of NHR and those who utilise this powerful process to change their lives and the lives of others. Demonstrate the desire to stay at the forefront of Dr Bandler's work.

NHR uses the hypnotic process to restructure experiences that people have at the neurological and chemical level. Instead of teaching people to lead with their minds, NHR teaches you to lead with your feelings. You learn to saturate your neurology with the chemicals that make us feel good. Because if you get your whole body in the right state there's just about nothing that human beings can't do. The only question is how much pleasure can you have, how much excitement can you stand, how much success can you gain?

Dr Bandler says; 'My job is not to fix people, it is to optimise them. I want people to orient their future to good things, having happier relationships, make better business decisions, more comfort and ease. This workshop is the closest I come to teaching you what I actually do with my clients.

If you are new to NLP you gain skills quickly and easily to make the changes you want and to help others too. More advanced practitioners will massively increase their effectiveness and add elegance to their work. You will find that you can build flexibility and deep change into your work with yourself and others.

What will you learn on this unique programme?

- Learn the way Dr Richard Bandler actually works with his clients.
- Alter your state and saturate your neurology with states of bliss so that happiness becomes a habit.
- Apply NHR in your chosen field to bring about amazing changes for you and your clients.
- Learn fast hypnotic inductions and non verbal inductions
- Orientate your future to good things, happier relationships, better business decisions, more creativity.
- Give your conscious mind techniques to use and prepare your unconscious mind to use them
- Change your beliefs and know you are capable of much more.
- Learn to be precise and elegant in your communications and language
- Learn in a supportive environment with highly skilled assistant trainers.
